Say These Quick!

The name of Maine's highest mountain has been spelled at various times and by various authorities Katahdin, Ktahdin and, as now generally recognized, Katahdin. A stream in the region has been called Wassataquoik, Wassataquoik and Wassatacook, and today the lumbermen call it Saatacook. Molunkus, Ripogonus and Nicaonus are simple enough to be let alone, but there is a big job awaiting the man who tries to simplify Pockwockamus, Sourdunahunk, Passamagmuck, Katepsegon (sometimes called Debsconeg), Caucongomico or Chemaquasahantico. Aboljacknagassett, Aboljackarmegassie or Aboljackamegas is generally clipped by the loggers and hunters to Abol, and in fact, is so called by nearly everybody on the plea that life is too short to wander through all the syllables that belong to the name of the stream.—Boston Transcript.

Grant and Porter.

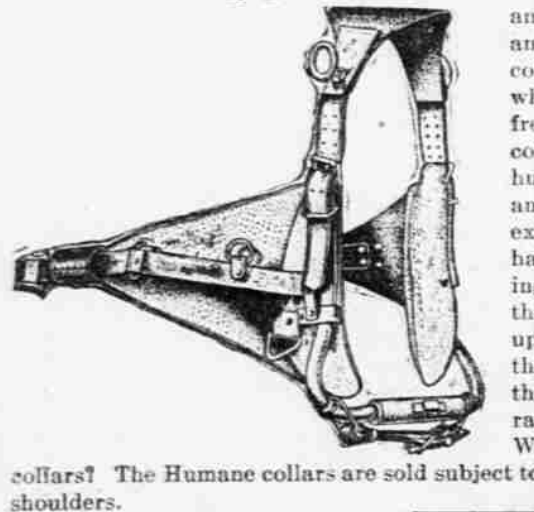

Admiral Porter was forever running into print, and this was a source of great annoyance to Grant, who was his staunch friend.

"What do you think of Porter as an admiral?" was asked of the general on one occasion.

"Why," replied Grant, with a quiet smile, "he would be the greatest admiral since Nelson if he had never learned to write."

NO MORE SORE NECKS OR SHOULDERS

The Humane Horse Collar, which by the way has no resemblance to the ordinary collar, is a new device brought out by the Humane Horse Collar Company of Omaha, Neb., and is meeting with extraordinary success. As shown in the cut, it has no stuffing of any kind, but is so constructed as to apply the breast collar principle to the shoulder of the horse. All the draft is carried by wide, strong leather, that makes a perfectly pliable surface in contact with the shoulder. It is claimed for this collar, and the manufacturers are willing to prove it, that it will cure any case of sore neck or shoulders on horses and mules and will make the cure while the animal works. It being adjustable in size, one collar will fit all the horses on the farm. Farmers who are using this collar are making the prediction freely that it will soon take the place of the old collar for all farm and heavy draft work; in fact, hundreds of farmers are laying aside good collars and using the Humane collar. An interesting experiment is made with this collar by placing the hand under any part of it while the team is drawing a heavy load. This is done without hurting the hand in the least, and illustrates why it cures up the bruises and keeps the well horses sound. If this experiment was tried with the ordinary collar the hand would be crushed. The world has made rapid strides in most every line in recent years. Why can we not advance in the field of horse collars? The Humane collars are sold subject to a thorough trial on horses with sore necks and shoulders.

J. D. Abrams, representing the Humane Horse Collar Co., will be in McCook, Saturday, July 20th, and especially desires to show this collar to everyone who uses horse collars. Farmers particularly are invited to examine this collar. 3,500 horses cured in the last three months. The State Agricultural Farm at Lincoln, Neb., is using three of these collars.—7-19-17

BARTLEY.

Salem Teter died Sunday, after many months of sickness, and was buried in the F. M. cemetery. He was 75 years and 2 months old, and came to this county in 1885.

Mr. and Mrs. S. B. Rowe returned Tuesday from a visit with their son Barbe Rowe and family of Dundu county.

Mr. and Mrs. Cliff Cox rejoice over the coming of a fine son, born Monday of this week.

The officers of the Lincoln Land Co. were here recently and have ordered an addition to the north part of Bartley of forty lots 50 x 140 and twelve blocks of two acres each. This was very much needed, as there was a shortage on resident lots in town. While here the president of the company subscribed \$500 stock for our \$5,000 hotel that will soon be built, and ordered 1,600 feet of concrete walk put in fronting some of their lots besides leaving orders to put in more walks as needed. They will next spring finish putting all their holdings near Bartley.

Since the first of January, 1907, there has been made, and some contracted for, over \$28,000 worth of improvements in Bartley, and the end is not yet.

There will be no more wooden sidewalks in Bartley. What has already been built and ordered will be over 20,000 feet, and more will be ordered before cold weather comes.

Webber's double store room 50x60 will soon be finished. Otis Farrer to occupy the south room. The north room has not yet been let.

The John Wolf store building will soon be finished and will be occupied by Murry Corbin. It is 26x30 and when finished and furnished will be one of the best barber shops along the valley. It is to be furnished with hot and cold water, bath and every thing usually found in a first class tonsorial parlor.

Perry Premier, contractor and builder, recently finished a neat cottage for himself. It was so nice that Otis Farrer wanted it for a home and bought it and will take possession August 1. Mr. Premier is building another, larger than the first, and will have it completed soon—and move in.

Ira Sheets has several hands under the instruction of Contractor Durbin putting up one of the best residence buildings in our village.

Contractor Pouze and son are now putting up a \$2,500 residence for Mr. Brush north of the corporate limits of Bartley.

The opera house to cost between \$5,000 and \$6,000 will be completed by October 1.

E. E. Smith will put in a new stone building 25x50 to be occupied by E. E. Shoemaker & Sons as a meat market. These with the new hotel will make merry music with hammer and saw until cold weather. Many other improvements are being made which will be mentioned later.

Tom Saul has returned to these parts with his crew and a large threshing machine and will begin work south of the river this week.

Mose King sold his farm three miles west of Bartley to a man from Ashland, Nebraska, for \$9,000. The deal was closed this week.

H. L. Brown is painting and otherwise improving his residence property.

A three inch rain Monday night cheered the hearts of every one. It was worth thousands of dollars to this vicinity and came without any damage. Truly we should be thankful people for our prosperous condition.

LATER.

Fire at two o'clock Thursday morning destroyed the post office and every thing in the building owned and occupied by S. N. Clark postmaster and dealer in hardware, also the harness stock of Clarence Bush and the frame barber shop occupied by Murry Corbin. Total loss, except postoffice fixtures, about \$3,500, insurance about \$2,000.
